

VW LIGHT COMMERCIALS

The work-leisure car.

The Kombi is really tested in the town and city.

With its tough durable engine it thrives on heavy traffic.

With constant stops, parking, reversing, manoeuvring, accelerating, slowing down, every single test is performed hundreds of times daily.

With all this, the Kombi is economic - on fuel, oil, parts and maintenance.

You'll notice that it fits into your life and becomes an important factor in your work and enjoyment.

During the week it works. It transports equipment, furniture, tools, machinery and almost anything you need for your job.

And on week-ends it brings the whole family to the beach.

The Kombi Van, enclosed on all sides, will transport a one-ton load, protected from the sun and rain.

And with perfect internal ventilation.

The Kombi Pick-Up, with its tailboard and dropsides, is easily loaded and unloaded.

It will transport heavy awkward crates

and is equipped with a closed compartment on the side for small fragile packages.

In either of its versions the Kombi is equipped with internal heating systems.

Whichever type of Kombi you want, you may examine it and its wonderful new series of colours at our

showrooms. It is a car to help you, both in your work

and hours of leisure.
